

# BADGES OF THE ORDERS OF CALONTIR

by Mistress Tatiana Dieugarde

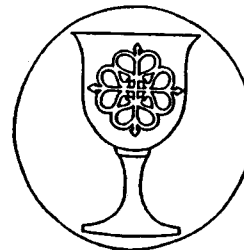

In the Kingdom of Calontir, we have a three-level award system, with the lowest being the AoA (Award of Arms) level awards. This is generally the first award individuals receive after getting their simple Award of Arms (if the individual did not receive a simple Award of Arms prior to receiving an AoA level award, the AoA level award also serves as an Award of Arms). The next step in the Calontir system is the GoA (Grant of Arms) level award, with the last step being a Peerage level award. Below is a brief description of the Orders of Calontir, with a description and picture of the Badge of each order.

When doing an original scroll for an individual, try to incorporate the badge of the award the individual is receiving into the layout of the scroll. When doing a scroll for a peerage level award, the scribe may choose to show the recipient's shield surrounded by the laurel wreath (for Laurels), a golden chain (for Knights), or a white baldric (for the Masters of Arms).
